EE 486 Graduation Project II

Schedule

	Description	Deadline
1	**Progress Report 1** Students prepare a progress report in the formal report format EE486_Progress_Report, available on the department webpage and submit the report before the deadline. This report declares the intended methodology, resources and impact of the project. - The report constitutes 10% of your grade.	3rd Week (At the time agreed upon with the advisor.)
2	**Progress Report 2** Students prepare a progress report in the formal report format EE486_Progress_Report, available on the department webpage and submit the report before the deadline. - The report constitutes 10% of your grade.	6th Week (At the time agreed upon with the advisor.)
3	**Progress Report 3** Students prepare a progress report in the formal report format EE486_Progress_Report, available on the department webpage and submit the report before the deadline. - The report constitutes 10% of your grade.	9th Week (At the time agreed upon with the advisor.)
4	**Progress Report 4** Students prepare a progress report in the formal report format EE486_Progress_Report, available on the department webpage and submit the report before the deadline. It is expected that in this report, most of the research/implementation regarding the project is complete. - The report constitutes 10% of your grade.	12th Week (At the time agreed upon with the advisor.)

5	**<u>Graduation Project Report</u>** Students prepare their graduation project report in the formal proposal format Lisans Bitirme Projesi Raporu Yazim Kilavuzu 2, available on the department webpage and submit the report as a soft copy before the deadline.	14th Week (At the time agreed upon with the advisor.)
6	**<u>Feedback to Graduation Project Report</u>** Students submit their graduation project reports to the department research assistants as a soft copy. If the research assistant suggests changes: - Students will make the changes and submit the report in printed form to their advisors until the end of the finals week. - If there are no changes required, the students will submit the report in printed form to their advisors until the end of the finals week.	14th Week (At the time agreed upon with the advisor.)
7	**<u>Graduation Project Presentation</u>** Students prepare a presentation on their graduation project and present it on the date agreed upon with their advisors. Notes: - Students may use any presentation making software available to them. Microsoft Powerpoint and LaTeX/Beamer presentations are common softwares for professional looking presentations. - Students are expected to deliver their presentation in formal/smart casual attire. - If the students have made a physical implementation, they must bring it to the presentation and showcase the working/capabilities of the implementation. - Any data/graphs added to the presentation must be readable and high resolution.	14th Week (At the time agreed upon with the advisor.)
